BIO:

Jules is a seasoned stand-up comedian with over 15 years of professional experience, known for deliberate pacing, soulful storytelling, and disarmingly relatable humor. His comedy blends queerness, intelligence, and warmth with a slightly unhinged wisdom that feels both classic and boldly modern. Jules has performed at comedy clubs, casinos, colleges, and theaters throughout the US as well as gay cruises and private events.

His 2018 special, "Insert Token" (Prime Video, Tubi, Sirius XM) was produced by the man who discovered Richard Pryor. He was also featured in "Out on Stage: the Movie," the only queer stand up ensemble movie to earn a national release.
